

Request for sewer user representation on the Lake Mitchell Sewer Authority Board

Petition to Cherry Grove, Clam Lake, and Selma Township Board members

We, the undersigned, are requesting appointment of sewer users as Directors to the Lake Mitchell Sewer Authority (LMSA) Board. We call on the Cherry Grove, Clam Lake, and Selma Township Boards to appoint property owners who are paying fees for sewer service to serve on the LMSA Board.

In February 2019 the Articles of Incorporation of the Lake Mitchell Sewer Authority were amended by approval of all three townships who have property owners served by the sewer authority. The proposed amendment was stated to be in response to a request to have sewer users on the board and make it easier to appoint them. To date there has been no change in the membership of the Lake Mitchell Sewer Board.

There are a number of very qualified sewer users who could serve as board members and recognize and support the need for a system that protects the public health, the environment, the wastewater collection system operator, prevention of unnecessary property damage and controls cost effectively. We are requesting an appointment at this time.
